**TAFTVILLE**  
 Tuesday afternoon was cooking time  
 for the girls at the Taftville school.  
 The class in cooking left the village at  
 2:45 for the city and went in a body  
 to the Broadway school where instruc-  
 tions for cooking are given. The girls  
 returned to the village arriving short-  
 ly before four o'clock.

Taftville students at the Norwich  
 Free Academy this year will number  
 over twenty which is the average  
 number of students that have attend-  
 ed the school from the village yearly.  
 During the past few days new books  
 have been purchased by those who  
 were not so fortunate as to make a  
 stop at the village school. The shore  
 line company has offered the stu-  
 dents ticket for sale and many of  
 the students have signed their in-  
 tended to take advantage of this  
 reduction in the usual price for trans-  
 portation to and from the city.

Another successful dance was held  
 Tuesday evening at the Taftville

 auspices of the Taftville school. The  
 dance was a success and the proceeds  
 were used for the benefit of the  
 school.

 ment gave the men the choice of an  
 furlough or reenlistment, Mr. Nor-  
 man chose to serve out his time  
 which was about one year and six  
 months. Immediately after the furlough  
 was given he was given the thirty  
 day furlough, with pay, which also  
 counts in on the time he has yet to  
 serve.

Harry Pierce of New London was  
 a business visitor in the village on  
 Tuesday.  
 Louis Casinet has accepted a posi-

**NEW BROADWAY SCHOOL PRINCIPAL**

Frank W. Clapp of Williamantic has  
 been appointed by the town school  
 committee as principal of the Broad-  
 way school. Mr. Clapp is a graduate  
 of the University of Connecticut and  
 has been teaching in the Williaman-  
 tic schools for several years. The ap-  
 pointment was made after the regu-  
 lar meeting of the committee on Tuesday  
 evening.

Mr. Clapp comes to his new position  
 well recommended, having been ac-  
 tively engaged along educational lines  
 for the past 21 years, being principal  
 of the Plainville schools for eight  
 years, four years principal of one of  
 the largest schools in New Britain, and  
 for the past nine years he has been  
 working with the state department of  
 education as a supervisor, having sev-  
 eral schools in the state under his di-  
 rection. Mr. Clapp will move his fam-  
 ily to this city as soon as he assumes  
 his duties, but the exact date of his  
 coming here has not been determined.  
 At the meeting Tuesday evening all  
 members of the committee were pres-  
 ent, together with Supt. E. J. Graham.

**CITY G. & E. PROFITS**  
**\$34,955.39 IN 15TH YEAR**  
 According to the 15th annual report  
 of the gas and electrical commission-  
 ers, which was presented to the com-  
 mon council Monday night covering  
 the year ending April 30, 1919, the  
 whole department showed a net profit  
 for the year of \$34,955.39. The profit  
 from the gas department was not suf-  
 ficient to cover its proportion of in-  
 terest and depreciation, but the profits  
 from the electrical department were  
 enough to overcome this and to show  
 the stated profit for the year, all of  
 which was put back into the plant.

On total income in the electrical de-  
 partment of \$304,439.89, there were  
 total expenses of \$274,109.89, leav-  
 ing an operating profit of \$30,330.00.  
 In the gas department the total in-  
 come was \$103,775.96 with expenses  
 of \$64,102.56, leaving an operating in-  
 come of \$39,673.40. With additions and  
 deductions of \$1,331.81 this made a to-  
 tal of \$101,105.21 from which is to be  
 deducted \$30,415.54 for depreciation  
 (required by statute), and interest of  
 \$25,545.17, leaving the profit of \$44,944.50.

On the whole operation of the  
 plant for fifteen years the profit now  
 shown is \$160,454.04.  
 In presenting the report the com-  
 missioners say that they feel that they  
 present to the owners of the plant  
 a record of the most successful oper-  
 ation of the plant in its history. In-  
 stead of the usual losses of the plant  
 the fact that during one-half of the  
 fiscal year handicaps of all kinds in-  
 creased in cost, a record of the most  
 successful operation of the plant in its  
 history. In the other half the severe  
 reaction from war-time activity were  
 felt with not compensating de-  
 creases in cost of labor and material.  
 The city now has a rebuilt plant  
 capable of supplying satisfactory gas  
 for illumination and fuel in adequate  
 quantity.

The new 4,000 kilowatt generator and  
 new boilers and fittings are in op-  
 eration and the danger of a break-  
 down in the light or power supply  
 now believed to be a thing of the past.  
 On June 10, Mayor J. J. Desmond  
 turned the current from the new gen-  
 erator to the city's circuits for the  
 first time.

The reception which the new gas  
 commercial department has met shows  
 there is a demand for such service  
 as it is rendering consumers and it  
 is believed it will benefit both the  
 public and the department.  
 The salaries of the new gas com-  
 mercial department, it is stated, are  
 now Superintendent Stephen J. Ke-  
 llogg at \$4,000 and Clerk Fred S. Ma-  
 rias at \$1,500.

During the twelve months  
 ending June 30, the gas mains at a cost  
 of \$2,707.00, new gas services at a cost  
 of \$4,551.00, new electric lines at a  
 cost of \$1,000.00, and new electric  
 services at a cost of \$2,148.74.

There was an increase in the use  
 of 33 gas meters, 292 electric light  
 meters, 5 electric street meters, and  
 there are now 7,542 meters of all  
 kinds in use.

The balance sheet of April 30 was

**Be Careful What You Wash Your Hair With**

Most soaps and prepared shampoos  
 contain too much alkali, which is  
 very injurious, as it dries the scalp  
 and makes the hair brittle.  
 The best thing to use is Mulsified  
 coconut oil shampoo, for this is pure  
 and entirely greaseless. It is very  
 cheap and beats anything else all to  
 pieces. You can get this at any drug  
 store, and a few ounces will last the  
 whole family for months.  
 Simply moisten the hair with water  
 and rub it in. It makes an abundance  
 of rich, creamy lather, cleanses thor-  
 oughly, and rinses out easily. The  
 hair dries quickly and evenly, and is  
 soft, fresh looking, bright, fluffy, wavy,  
 and easy to handle. Besides, it loos-  
 ens and takes out every particle of  
 dust, dirt and dandruff.
